GEVREK /OHRID BAGEL/

Circular bread, typically encrusted with sesame seeds. The dough is boiled, then placed into a caramel sirup, coated in sesame seeds and baked. It is a favorite local morning food, usually combined with yogurt.

GJOMLEZE

Macedonian traditional dish, a symbol of Ohrid and Struga cuisine. Traditionally, gjomleze is prepared only from flour, water and salt, in recent times oil is added to it and baked under an oven. Nowadays this traditional dish is offered in restaurants as a specialty.

AJVAR

A condiment made principally from sweet bell peppers. It can be consumed as a bread spread or as a side dish. Macedonia makes the most delicious ajvar in the region. Locally, it is usually combined with white cheese.
